

Welcome to Eyeleds®

Eyeleds are a patented, easy to install, built in walk over lighting innovation based on LED technology. They are IP67 rated, suitable for indoor and outdoor applications, cool to touch, energy saving and of outstanding quality. Being tempered from stainless steel 316 or moulded from UV- resistant PC, they are a perfect blend of durability, functionality and aesthetics.

Due to the unique, ultra thin, low profile design and the powerful LEDs, Eyeleds can just about be installed anywhere.

Please browse through the catalogue to understand how this simple plug and play system can enhance every installation you do, backed up with a 3 year Guarantee to give you the assurance and confidence you need.

The Lightworks are the Official Distributors for these products in the UK and for free friendly advice and assistance, call our helpline on 01302 741941 . Please click [here](#) to download your pdf copy or [email](#) to request a hard copy of the catalogue.
